

## TCA MONTHLY

### TRI-COUNTY AUTO SUPPLY COMPANY- **MARCH 2020**

#### March of Dimes

With your help TCA is hoping to give a Pot O' Gold to the March of Dimes charity!

A dime for a dime! For the entire month of March TCA will be donating a dime to the March of Dimes charity for every can of brake clean sold! Place your orders for brake clean this month to add to our pot of gold being donated. The March of Dimes organization leads the fight for the health of all moms and babies. They believe that every baby deserves the best possible start. Unfortunately, not all babies get one and MOD is changing that. To find out more information on March of Dimes, how you can participate or donate please visit: [www.marchofdimes.org](http://www.marchofdimes.org)

**Tote-A-Lube stackable storage and handling systems** are designed to reduce your total fluid expenses, maximize floor space, and provide safe and efficient storage for a vast number of bulk fluids including oils, lubricants, hydraulic fluids, ATF, anti-freeze and DEF. A one-time investment in a stackable storage tank system will handle all of your bulk fluids so that you can eliminate the hassles and clutter of packaged goods and drums, while lowering your overall fluid expenses by enabling bulk oil delivery.

Fluidall's space-saving Tote-A-Lube fluid storage and handling systems can be configured with rolling casters or on forkliftable skids for portable fluid dispensing. The stacked storage tank systems can also be configured with fluid dispense packages, oil bars, SPCC compliant secondary containment, filtration, and other fluid handling equipment.

Our proprietary fluid storage tanks are constructed from virgin polyethylene UL rated food-grade resins design that provide a visual fluid inventory, and the patented fill port design allows for easy fill in each stacked tank. Each tank now has a 1" NPT stainless steel dispense fitting.
